Thank you for your letter to the friends.

I would like to clarify that the balances of the FOL account are as follows  
(End of September 2021)

Operating Checking \$5668.38

Money Market \$24,098.91

The total is approximately \$29,767.29

I have forwarded to you the bylaws under a separate email.

With regard to the bookstore; it is merely the fund raising vehicle of the organization. Funds could be raised other ways. That said it is our understanding that the current board of trustees desired to reclaim the space for a meeting room. Thus giving us no other alternative.

The tone of the letter received gave me pause and I will need to digest the contents and my perception.

All of us wants what's best for the library.

To manage that we will need to work together and have a better understanding of each other.

Should you have any questions, please let me know.
